Maggie has little knowledge of what is listed and tried as best as she could to match the items, numbers and conditions of the items.  
 View these items when they were spread out randomly. They were neatly & carefully placed in boxes as neatly and carefully as possible. Individual items would be very difficult to find, given the the way these items have been boxed.  
 If you would like any of these items, you can let Maggie know. She is trying to sell this as a unit. She will try to forward your request to whomever gets it all.
